# Goliath Storm

Goliath Storm Goggle provides flawless optic performance, %100 UVA,B,C protection, the widest field of view, interoperable with other equipment, maximum protection against ballistic and environmental threats. The high performance Dipcoat Coating Technology provides an optimal combination of anti-scratch coatings and anti-fog coatings on lenses. Goliath Storm Goggle exceeds EN 166, ANZI Z.87.1 and MIL-DTL-43511D Clause 3.5.10 Ballistic Resistance Standards. In addition to these features, Goliath Storm Goggle are produced for Asian-Fit optionally. Goliath Storm Goggle NSN: 8465-27-059-2056

## Clear Lenses

Clear lenses provide all the ultraviolet radiation and eye injury protection while allowing almost all visible light through. They provide minimal glare protection. However, they are suitable for night, indoor or general use.

## Yellow Lenses

Yellow lenses perform best in low light conditions where dawn or dusk and on overcast or foggy days. Also, they filter out blue light and hazy light that is hard on the eyes. This feature enhances sight performance, especially on blue backgrounds, while also providing a soothing effect on your eyes.

## Smoke Lenses

Smoke lenses are suitable for protection against sunglare in industry, for use in tropic and sub-tropic, and observation of the sky. They are also suitable for use in high mountain regions, snow covered areas, bright stretches of water, sandy plains, chalk and limestone quarries;

**HIGH PERFORMANCE  
DIPCOAT COATING**  
PROTECTS AGAINST  
FOGGING AND SCRATCHING

**FORCED AIR VENTS**  
MAXIMIZE AIR FLOW.
